FIRE SAFETY EDUCATION DAY

DESIGN YOUR SAFE EXIT PLAN

August 2, 2025 | 9 am - 2 pm

In celebration of Fire Safety Education Day, kids are invited to take part in a creative and important challenge—design and color their family's home fire escape plan!

How it Works:

- Pick up a blank fire escape plan worksheet at the Museum.
- Use crayons, markers, stickers—anything goes!—to illustrate your home, two safe ways out, your meeting spot, and any other special touches that show how your family plans to stay safe.
- Bring your completed plan back to the Museum by Saturday, August 2 to be entered for a chance to win a Sparky the Fire Dog plush!

Every participant receives a Junior Fire Safety Certificate from Sparky!

This activity helps children learn:

- What smoke alarms sound like
- Two ways out of every room
- Where to meet safely outside
- That they can help keep their family safe!

Let's color our way to safer homes—because fire safety starts with a plan!
